INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of Furuno Electric Co., Ltd.:

Opinion

We have audited the consolidated financial statements of Furuno Electric Co., Ltd. and its consolidated subsidiaries (the "Group"), which comprise the consolidated balance sheet as of February 28, 2022, and the consolidated statement of income, consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies, all expressed in Japanese yen.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as of February 28, 2022, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with accounting principles generally accepted in Japan.

Convenience Translation

Our audit also comprehended the translation of Japanese yen amounts into U.S. dollar amounts and, in our opinion, such translation has been made in accordance with the basis stated in Note 1 to the consolidated financial statements. Such U.S. dollar amounts are presented solely for the convenience of readers outside Japan.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in Japan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the provisions of the Code of Professional Ethics in Japan, and we have fulfilled our other ethical responsibilities as auditors. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matter

A key audit matter is a matter that, in our professional judgment, was of most significance in our audit of the consolidated financial statements of the current period. The matter was addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on the matter.

Recoverability of Furuno Electric Co., Ltd.'s deferred tax assets

Key Audit Matter Description

The Group recorded deferred tax assets of 240 million yen in the consolidated balance sheet as of February 28, 2022. As described in Note 11 "Income Taxes," the amount of deferred tax assets before offsetting against deferred tax liabilities was 851 million yen, which is the amount calculated by deducting the valuation allowance of 5,088 million yen from the deferred tax assets of 5,940 million yen related to deductible temporary differences and tax loss carryforwards. Among these amounts, Furuno Electric Co., Ltd., (the "Company") recognized the total amount of deferred tax assets related to deductible temporary differences and tax loss carryforwards of 4,468 million yen and the valuation allowance of 3,988 million yen, respectively.

The deferred tax assets are recorded to the extent that they have the effect of reducing future tax expenses by using deductible temporary differences or offsetting tax loss carryforwards against taxable income.

As described in Note 3 "Significant Accounting Estimates - Recoverability of deferred tax assets," the recoverability of deferred tax assets is determined based on estimation of future taxable income and tax planning. Future taxable income is estimated based on the Company's business plans. Forecasts of sales and cost of sales used in the business plans include significant assumptions, such as sales volume, production volume, and price that involves uncertainties, and management's judgments have a significant impact on the amount of deferred tax assets. Based on the above, we determined that the estimation of future taxable income with respect to the recoverability of deferred tax assets is particularly significant for the audit of the consolidated financial statements for the current fiscal year. Therefore, we identified it as a key audit matter.

How the Key Audit Matter Was Addressed in the Audit

In testing the recoverability of deferred tax assets, we performed the following audit procedures, among others:

- We tested the design and operating effectiveness of the controls over the determination of the recoverability of deferred tax assets, including estimation of future taxable income.
- We evaluated the consistency of future business plans used in estimating the future taxable income with the business plans for the following year approved by the Board of Directors.
- Regarding the significant assumptions, such as sales volume, production volume, and price that are included in future business plans, we made inquiries of the relevant departments and examined whether these assumptions are reasonably set in light of status of orders received and forecast of market environment.
- We tested the amounts of deductible temporary differences and tax loss carryforwards and the scheduling of the expected timing of deduction with the assistance of our tax specialists.
- We evaluated the accuracy of management's estimation by comparing past business plans with actual results and examining the causes of the differences.

Responsibilities of Management and Audit & Supervisory Board Members and the Audit & Supervisory Board for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in Japan, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern in accordance with accounting principles generally accepted in Japan and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Audit & Supervisory Board members and the Audit & Supervisory Board are responsible for overseeing the Directors' execution of duties relating to the design and operating effectiveness of the controls over the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in Japan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with auditing standards generally accepted in Japan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks. The procedures selected depend on the auditor's judgment. In addition, we obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain, when performing risk assessment procedures, an understanding of internal control relevant to the audit in
 order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing
 an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate whether the overall presentation and disclosures of the consolidated financial statements are in accordance with accounting principles generally accepted in Japan, as well as the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

• Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with Audit & Supervisory Board members and the Audit & Supervisory Board regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide Audit & Supervisory Board members and the Audit & Supervisory Board with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with Audit & Supervisory Board members and the Audit & Supervisory Board, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Interest Required to Be Disclosed by the Certified Public Accountants Act of Japan

Deloitte Touche Tohmatsu LLC

Our firm and its designated engagement partners do not have any interest in the Group which is required to be disclosed pursuant to the provisions of the Certified Public Accountants Act of Japan.

Notes to Consolidated Financial Statements

FURUNO ELECTRIC CO., LTD. and Consolidated Subsidiaries Year Ended February 28, 2022

1. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS

The accompanying consolidated financial statements have been prepared in accordance with the provisions set forth in the Japanese Financial Instruments and Exchange Act and its related accounting regulations and in accordance with accounting principles generally accepted in Japan ("Japanese GAAP"), which are different in certain respects as to the application and disclosure requirements of International Financial Reporting Standards ("IFRS").

In preparing these consolidated financial statements, certain reclassifications and rearrangements have been made to the consolidated financial statements issued domestically in order to present them in a form which is more familiar to readers outside Japan. In addition, certain reclassifications have been made in the 2021 consolidated financial statements to conform to the classifications used in 2022.

The consolidated financial statements are stated in Japanese yen, the currency of the country in which Furuno Electric Co., Ltd. (the "Company") is incorporated and operates. The translations of Japanese yen amounts into U.S. dollar amounts are included solely for the convenience of readers outside Japan and have been made at the rate of ¥115.55 to \$1, the approximate rate of exchange at February 28, 2022. Such translations should not be construed as representations that the Japanese yen amounts could be converted into U.S. dollars at that or any other rate.

As permitted under the Financial Instruments and Exchange Act of Japan, figures less than one million yen have been omitted. As a result, the totals shown in the accompanying consolidated financial statements do not necessarily agree with the sum of the individual amounts.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a. Consolidation—The consolidated financial statements as of February 28, 2022 include the accounts of the Company and its 33 significant (33 in 2021) subsidiaries (together, the "Group").

Under the control and influence concepts, those companies in which the Company, directly or indirectly, is able to exercise control over operations are fully consolidated, and those companies over which the Group has the ability to exercise significant influence are accounted for by the equity method.

Investments in an associated company are accounted for by the equity method. Investments in 7 (5 in 2021) unconsolidated subsidiaries and 1 (2 in 2021) associated companies are stated at cost. If the equity method of accounting had been applied to the investments in these companies, the effect on the accompanying consolidated financial statements would not be material.

Goodwill represents the excess of the cost of an acquisition over the fair value of the net assets of the acquired subsidiary company at the date of acquisition. Goodwill is reported in the balance sheet and is amortized using the straight-line method over reasonably estimated periods (mainly 18 years) in which economic benefits are expected to be realized.

All significant intercompany balances and transactions have been eliminated in consolidation. All material unrealized profit included in assets resulting from transactions within the Group is also eliminated.

The fiscal year-end dates of 27 consolidated subsidiaries are different from the consolidated balance sheet date of February 28th or 29th. The fiscal year-end dates of FURUNO U.S.A., Inc. and FURUNO PANAMA, S.A. are November 30th and 25 other subsidiaries' fiscal year-end dates are December 31st.

b. Unification of Accounting Policies Applied to Foreign Subsidiaries for the Consolidated Financial Statements—Under Accounting Standards Board of Japan ("ASBJ") Practical Issues Task Force ("PITF") No. 18, "Practical Solution on Unification of Accounting Policies Applied to Foreign Subsidiaries for the Consolidated Financial Statements," the accounting policies and procedures applied to a parent company and its subsidiaries for similar transactions and events under similar circumstances should in principle be unified for the preparation of the consolidated financial statements. However, financial statements prepared by foreign subsidiaries in accordance with either International Financial Reporting Standards or generally accepted accounting principles in the United States of America (Financial Accounting Standards Board Accounting Standards Codification) tentatively may be used for the consolidation process, except for the following items that should be adjusted in the consolidation process so that net

income is accounted for in accordance with Japanese GAAP, unless they are not material; (a) amortization of goodwill; (b) scheduled amortization of actuarial gain or loss of pensions that has been recorded in equity through other comprehensive income; (c) expensing capitalized development costs of R&D; (d) cancellation of the fair value model of accounting for property, plant and equipment and investment properties and incorporation of the cost model of accounting; and (e) recording a gain or loss through profit or loss on the sale of an investment in an equity instrument for the difference between the acquisition cost and selling price, and recording impairment loss through profit or loss for other-than-temporary declines in the fair value of an investment in an equity instrument, where a foreign subsidiary elects to present in other comprehensive income subsequent changes in the fair value of an investment in an equity instrument.

- c. Unification of Accounting Policies Applied to Foreign Associated Companies for the Equity Method - ASBJ Statement No. 16, "Accounting Standard for Equity Method of Accounting for Investments," requires adjustments to be made to conform the associate's accounting policies for similar transactions and events under similar circumstances to those of the parent company when the associate's financial statements are used in applying the equity method, unless it is impracticable to determine such adjustments. In addition, financial statements prepared by foreign associated companies in accordance with either International Financial Reporting Standards or generally accepted accounting principles in the United States of America tentatively may be used in applying the equity method if the following items are adjusted so that net income is accounted for in accordance with Japanese GAAP, unless they are not material: (a) amortization of goodwill; (b) scheduled amortization of actuarial gain or loss of pensions that has been recorded in equity through other comprehensive income; (c) expensing capitalized development costs of R&D; (d) cancellation of the fair value model of accounting for property, plant and equipment and investment properties and incorporation of the cost model of accounting; and (e) recording a gain or loss through profit or loss on the sale of an investment in an equity instrument for the difference between the acquisition cost and selling price, and recording impairment loss through profit or loss for other-than-temporary declines in the fair value of an investment in an equity instrument, where a foreign associate elects to present in other comprehensive income subsequent changes in the fair value of an investment in an equity instrument.
- d. Business Combinations Business combinations are accounted for using the purchase method. Acquisition-related costs, such as advisory fees or professional fees, are accounted for as expenses in the periods in which the costs are incurred. If the initial accounting for a business combination is incomplete by the end of the reporting period in which the business combination occurs, an acquirer shall report in its financial statements provisional amounts for the items for which the accounting is incomplete. During the measurement period, which shall not exceed one year from the acquisition, the acquirer shall retrospectively adjust the provisional amounts recognized at the acquisition date to reflect new information obtained about facts and circumstances that existed as of the acquisition date and that would have affected the measurement of the amounts recognized as of that date. Such adjustments shall be recognized as if the accounting for the business combination had been completed at the acquisition date. The acquirer recognizes any bargain purchase gain in profit or loss immediately on the acquisition date after reassessing and confirming that all of the assets acquired and all of the liabilities assumed have been identified after a review of the procedures used in the purchase price allocation. A parent's ownership interest in a subsidiary might change if the parent purchases or sells ownership interests in its subsidiary. The carrying amount of noncontrolling interest is adjusted to reflect the change in the parent's ownership interest in its subsidiary while the parent retains its controlling interest in its subsidiary. Any difference between the fair value of the consideration received or paid and the amount by which the noncontrolling interest is adjusted is accounted for as capital surplus as long as the parent retains control over its subsidiary.
- e. Cash Equivalents—Cash equivalents are short-term investments that are readily convertible into cash and exposed to insignificant risk of changes in value. Cash equivalents include time deposits, certificates of deposit, commercial paper and bond funds, all of which mature or become due within three months of the date of acquisition.

- f. Allowance for Doubtful Accounts The allowance for doubtful accounts is stated in amounts considered to be appropriate based on the Group's past credit loss experience and an evaluation of potential losses in the receivables outstanding.
- **g. Inventories**—Inventories are stated at the lower of cost, principally determined by the average method, or net selling value.
- h. Investment Securities The Company and its domestic consolidated subsidiaries categorize their existing securities as available-for-sale securities. Those securities with market prices are carried at fair values prevailing at the balance sheet date, with net unrealized gains and losses, net of related taxes, reported in a separate component of equity. The cost of securities sold is mainly calculated using the moving-average method.

Nonmarketable available-for-sale securities are stated at cost determined by the moving-average method. For other-than-temporary declines in fair value, investment securities are reduced to net realizable value by a charge to income.

- i. Property, Plant and Equipment—Property, plant and equipment are carried at cost. Depreciation of property, plant and equipment is computed principally by the declining-balance method, while the straight-line method is applied to building improvements and structures acquired on or after April 1, 2016.
- j. Long-Lived Assets—The Group reviews its long-lived assets for impairment whenever events or changes in circumstance indicate the carrying amount of an asset or asset group may not be recoverable. An impairment loss is recognized if the carrying amount of an asset or asset group exceeds the sum of the undiscounted future cash flows expected to result from the continued use and eventual disposition of the asset or asset group. The impairment loss would be measured as the amount by which the carrying amount of the asset exceeds its recoverable amount, which is the higher of the discounted cash flows from the continued use and eventual disposition of the asset or the net selling price at disposition.
- k. Product Warranty Costs The Group establishes a liability for estimated product warranty costs at the time of sale. Estimates for accrued product warranty costs are primarily based on historical experience.
- I. Retirement and Pension Plans—The Company and certain consolidated subsidiaries have lump-sum severance indemnity plans, defined contribution pension plans and contributory funded defined benefit pension plans, which are pursuant to the Japanese Welfare Pension Insurance Law.

The Company accounts for liabilities for retirement benefits based on the projected benefit obligations and plan assets at the balance sheet date. The projected benefit obligations are attributed to periods on a benefit formula basis. Actuarial gains and losses are amortized on a straight-line basis over 10 years within the average remaining service period of employees commencing from the following year after incurrence. Past service costs are amortized on a straight-line basis over 10 years within the average remaining service period of employees.

Certain consolidated subsidiaries adopt a simplified method under which the retirement benefit amount required to be paid if all the employees retired on the balance sheet date is considered as the projected benefit obligations in computing liabilities for retirement benefits and net periodic benefit costs.

m. Asset Retirement Obligations—An asset retirement obligation is defined as a legal obligation imposed either by law or contract that results from the acquisition, construction, development, and normal operation of a tangible fixed asset and is associated with the retirement of such tangible fixed asset. The asset retirement obligation is recognized as the sum of the discounted cash flows required for the future asset retirement and is recorded in the period in which the obligation is incurred if a reasonable estimate can be made. If a reasonable estimate of the asset retirement obligation cannot be made in the period the asset retirement obligation is incurred, the liability should be recognized when a reasonable estimate of the asset retirement obligation can be made. Upon initial recognition of a liability for an asset retirement obligation, an asset retirement cost is capitalized by increasing the carrying amount of the

related fixed asset by the amount of the liability. The asset retirement cost is subsequently allocated to expense through depreciation over the remaining useful life of the asset. Over time, the liability is accreted to its present value each period. Any subsequent revisions to the timing or the amount of the original estimate of undiscounted cash flows are reflected as an adjustment to the carrying amount of the liability and the capitalized amount of the related asset retirement cost.

- n. Research and Development Costs Research and development costs are charged to income as incurred.
- o. Income Taxes—The provision for income taxes is computed based on the pretax income included in the consolidated statements of income. The asset and liability approach is used to recognize deferred tax assets and liabilities for the expected future tax consequences of temporary differences between the carrying amounts and the tax bases of assets and liabilities. Deferred taxes are measured by applying currently enacted income tax rates to the temporary differences.

The Group files a tax return under the consolidated corporate-tax system, which allows companies to base tax payments on the combined profits or losses of the parent company and its wholly owned domestic subsidiaries.

- p. Foreign Currency Transactions All short-term and long-term monetary receivables and payables denominated in foreign currencies are translated into Japanese yen at the exchange rates at the balance sheet date. The foreign exchange gains and losses from translation are recognized in the consolidated statements of income to the extent that they are not hedged by forward exchange contracts.
- q. Foreign Currency Financial Statements—The balance sheet accounts of the consolidated foreign subsidiaries are translated into Japanese yen at the current exchange rate as of the balance sheet date except for equity, which is translated at the historical rate. Differences arising from such translation were shown as "Foreign currency translation adjustments" and also allocated to "Noncontrolling interests" in a separate component of equity. Revenue and expense accounts of consolidated foreign subsidiaries are translated into yen at the average exchange rate.
- r. Derivatives and Hedging Activities The Group uses derivative financial instruments to manage exposures to fluctuations in interest rates. Interest rate swaps are utilized to reduce the interest rate risks of long-term debt. The Group does not enter into derivatives for trading or speculative purposes.

Derivative financial instruments are classified and accounted for as follows: a) all derivatives are recognized as either assets or liabilities and measured at fair value, and gains or losses on derivative transactions are recognized in the consolidated statements of income; and b) for derivatives used for hedging purposes, if such derivatives qualify for hedge accounting because of high correlation and effectiveness between the hedging instruments and the hedged items, gains or losses on derivatives are deferred until maturity of the hedged transactions in principle.

The interest rate swaps which qualify for hedge accounting and meet specific matching criteria are not remeasured at market value but the differential paid or received under the swap agreements are recognized and included in interest expense or income.

s. Per Share Information – Basic net income per share is computed by dividing net income attributable to common shareholders by the weighted-average number of common shares outstanding for the period.

Cash dividends per share presented in the accompanying consolidated statements of income are dividends applicable to the respective fiscal years, including dividends to be paid after the end of the year.

t. New Accounting Pronouncements:

The ASBJ issued "Accounting Standard for Fair Value Measurement" (ASBJ Statement No. 30) on July 4, 2019, "Implementation Guidance on Accounting Standard for Fair Value

Measurement" (ASBJ Guidance No. 31) on July 4, 2019, "Accounting Standard for Measurement of Inventories" (ASBJ Statement No. 9) on July 4, 2019 "Accounting Standard for Financial Instruments" (ASBJ Statement No. 10) on July 4, 2019 and "Implementation Guidance on Disclosures about Fair Value of Financial Instruments" (ASBJ Guidance No. 19) on March 31, 2020.

(1) Overview

In order to enhance the comparability with international accounting standards, "Accounting Standard for Fair Value Measurement" and "Implementation Guidance on Accounting Standard for Fair Value Measurement" (hereinafter collectively "Fair Value Accounting Standards, etc.") have been developed and guidance on fair value measurement, etc. have been provided. Fair Value Accounting Standards, etc. will be applied to the fair value of the following items:

- Financial instruments defined in "Accounting Standard for Financial Instruments"
- Inventories held for trading purposes defined in "Accounting Standard for Measurement of Inventories"

In addition, "Implementation Guidance on Disclosures about Fair Value of Financial Instruments" has been revised and notes, including components by level of the fair value of financial instruments, have been provided.

(2) Date of adoption

The Company expects to adopt the accounting standards and implementation guidance from the beginning of the year ending February 28, 2023.

(3) Impact of the adoption of the accounting standards, etc.

The impact of the adoption of the standards and implementation guidance is under evaluation at the time of preparation of the accompanying consolidated financial statements.

On June 17, 2021, the ASBJ issued "Implementation Guidance on Accounting Standard for Fair Value Measurement" (ASBJ Guidance No. 31).

(1) Overview

ASBJ Guidance No. 31 defines the measurement of the fair value of investment trust and its treatment on the notes as well as the treatment concerning the notes about the fair value of investments in partnerships, etc. to be recorded in a net amount of the amount equivalent to the equity interest on the balance sheet.

(2) Date of adoption

The Company expects to adopt the implementation guidance from the beginning of the year ending February 29, 2024.

(3) Impact of the adoption of the accounting standards, etc.

The impact of the adoption of the implementation guidance is under evaluation at the time of preparation of the accompanying consolidated financial statements.

For the Company and its domestic subsidiaries; Accounting Standard for Revenue Recognition

The ASBJ issued "Accounting Standard for Revenue Recognition" (ASBJ Statement No. 29) on March 31, 2020 and "Implementation Guidance on Accounting Standard for Revenue Recognition" (ASBJ Guidance No. 30) on March 26, 2021.

(1) Overview

This is a comprehensive accounting standard for revenue recognition. Revenue will be recognized by applying the following five steps:

- Step 1: Identify the contract(s) with a customer
- Step 2: Identify the performance obligations in the contract
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to the performance obligations in the contract
- Step 5: Recognize revenue when (or as) the entity satisfies a performance obligation

(2) Scheduled date of adoption

The Company expects to adopt the accounting standard and implementation guidance from the beginning of the year ending February 28, 2023.

(3) Impact of the adoption of the accounting standards, etc.

The impact of the adoption of this accounting standard and implementation guidance is under evaluation at the time of preparation of the accompanying consolidated financial statements.

For the subsidiaries adopting U.S. GAAP; Accounting Standard for Leases

(1) Overview

The Financial Accounting Standards Board ("FASB") issued ASU 2016-02 "Leases," requiring the lessee to recognize all lease assets and liabilities on the balance sheet in principle.

(2) Scheduled date of adoption

Certain overseas subsidiaries that apply accounting principles generally accepted in United States of America ("U.S. GAAP") expect to apply this accounting standard from the beginning of the year ending February 29, 2024.

(3) Impact of the adoption of the accounting standard

The impact of the adoption of this accounting standard is under evaluation at the time of preparation of the accompanying consolidated financial statements.

u. Changes in Presentation

Consolidated Cash Flow Statement

"Gain (loss) on sales of investment securities" in "Cash flows from operating activities," which was presented as an independent item in the previous fiscal year, is included in "Others" from the current fiscal year due to its immateriality. To reflect this change in presentation, the consolidated financial statements for the previous fiscal year have been reclassified.

As a result, "Gain on sale of investment securities" of ¥1 million (\$8 thousand) and "Others" of ¥61 million (\$527 thousand), which were presented in "Cash flows from operating activities" in the consolidated statement of cash flows for the previous fiscal year, have been reclassified to "Others" of ¥61 million (\$527 thousand).

v. Additional Information

Impact of COVID-19 on Accounting Estimates—While it remains difficult to foresee the future spread or containment of COVID-19, accounting estimates have been made for the year ended February 28, 2022 assuming that the impact of COVID-19 on the Group would be limited.

As the timing of COVID-19 containment is uncertain, estimates may be revised according to future changes in circumstances, which may affect the Group's financial position and operating results for the year ending February 28, 2023 onward.

3. SIGNIFICANT ACCOUNTING ESTIMATES

Accounting estimates are recorded at the reasonable amounts computed based on information available at the time of preparation of the consolidated financial statements.

The item whose amounts were recorded based on accounting estimates in the consolidated financial statements for the year ended February 28, 2022 that may have a significant impact on the consolidated financial statements for the following fiscal year is as follows:

Recoverability of deferred tax assets

(1) Amounts recorded in the consolidated financial statements for the year ended February 28, 2022

	Millions of	Thousands of
	Yen	U.S. Dollars
Deferred tax assets	¥240	\$2,077

The amount recorded as deferred tax assets refers to the amount after offsetting against deferred tax liabilities and deducting valuation allowance.

(2) Information about the details of significant accounting estimates on the identified item Deferred tax assets are recognized to the extent that it is considered to have effects to reduce future tax burdens through the reversal of deductible temporary differences or the offsetting of tax loss carryforwards against taxable income.

Recoverability of deferred tax assets is judged based on the estimates of taxable income in the foreseeable future, tax planning, etc. The estimates of future taxable income are determined based on the business plan, projection of net sales and cost of sales included in which contains significant assumptions such as sales volume, production volume and prices. Therefore, when the assessment of recoverability of deferred tax assets changes due to any variations in these significant assumptions, it might have an impact on the consolidated financial statements for the following fiscal year.

4. SHORT-TERM INVESTMENTS

Short-term investments as of February 28, 2022 and 2021, consisted of the following:

			Thousands of
	Millions of Yen		U.S. Dollars
	2022	2021	2022
Time deposits other than cash equivalents	¥486	¥496	\$4,205

5. INVESTMENT SECURITIES

Investment securities as of February 28, 2022 and 2021, consisted of the following:

			Thousands of
	Millions of Yen		U.S. Dollars
	2022	2021	2022
Non-current:			
Marketable equity securities	¥1,781	¥1,506	\$15,413
Government and corporate bonds		101	
Other	199	193	1,722
Total	¥1,981	¥1,800	\$17,144

The costs and aggregate fair values of investment securities at February 28, 2022 and 2021, were as follows:

	Millions of Yen				
February 28, 2022	Cost	Unrealized Gains	Unrealized Losses	Fair Value	
Securities classified as:	Cost	Gairis	LUSSES	value	
Available-for-sale:					
Equity securities	¥916	¥869	¥4	¥1,781	
Debt securities				<u> </u>	
Other	43	32		76	
February 28, 2021					
Securities classified as:					
Available-for-sale:					
Equity securities	¥919	¥591	¥4	¥1,506	
Debt securities	65	35		101	
Other	43	34		77	
		Thousands o	f U.S. Dollars		
February 28, 2022	Cost	Unrealized Gains	Unrealized Losses	Fair Value	
Securities classified as:					
Available-for-sale:					
Equity securities	\$7,927	\$7,520	\$34	\$15,413	
Debt securities					
Other	372	276		657	

Available-for-sale securities whose fair value is not readily determinable as of February 28, 2022 and 2021, were as follows:

	Ca	Carrying Amour		
			Thousands of	
	Millions	Millions of Yen		
	2022	2021	2022	
Available-for-sale:				
Equity securities	¥123	¥115	\$1,064	

For the year ended February 28, 2022, the Company recognized loss on revaluation of investment securities (equity securities classified as available-for-sale) in an amount of ¥17 million (\$147 thousand).

6. INVENTORIES

Inventories at February 28, 2022 and 2021, consisted of the following:

	Millions	of Yen	Thousands of U.S. Dollars
	2022	2021	2022
Merchandise and finished products	¥14,255	¥15,044	\$123,366
Work in process	3,955	3,074	34,227
Raw materials and supplies	9,482	5,910	82,059
Total	¥27,693	¥24,028	\$239,662

7. LONG-LIVED ASSETS

The Group reviewed its long-lived assets for impairment as of February 28, 2022 and 2021. As a result, the Group recognized impairment losses of ¥39 million (\$337 thousand) and ¥49 million, respectively, as other expenses. These impairment losses primarily related to long-lived assets of the Marine Business and the Industrial Business for the years ended February 28, 2022 and 2021 due to continuing operating losses in the divisions. Recoverable amounts of these assets were measured in terms of the value in use. However, since future cash flows are not expected, the value in use is calculated as zero.

8. SHORT-TERM BANK LOANS, LONG-TERM DEBT AND LEASE OBLIGATIONS

Short-term bank loans at February 28, 2022 and 2021, consisted of notes to banks and bank overdrafts. The weighted-average interest rates applicable to the short-term bank loans were -% and 13.11% at February 28, 2022 and 2021, respectively.

Long-term debt at February 28, 2022 and 2021, consisted of the following:

	Millions	of Yen	U.S. Dollars
	2022	2021	2022
Loans from banks and insurance companies, due serially to 2028 with weighted-average interest rates from 0.31% to 0.49% (2022) and from 0.32% to 0.48% (2021)	¥9,600	¥9,953	\$ 83,080
Less current portion	(1,300)	(753)	(11,250)
Long-term debt, less current portion	¥8,300	¥9,200	\$ 71,830

Lease obligations with due dates leading up to March 2058 with an average interest rate of 2.56% are included in "Other long-term liabilities," excluding current portion which is included in "Other current liabilities."

Annual maturities of long-term debt and lease obligations at February 28, 2022, were as follows:

			Thousa	ands of
	Millions	Millions of Yen		Oollars
	Long-term	Lease	Long-term	Lease
Year Ending February 28 or 29	Debt	Obligations	Debt	Obligations
2023	¥1,300	¥314	\$11,250	\$2,717
2024	200	217	1,730	1,877
2025	3,200	138	27,693	1,194
2026	3,000	38	25,962	328
2027	400	32	3,461	276
2028 and thereafter	1,500	31	12,981	268
Total	¥9,600	¥773	\$83,080	\$6,689

The carrying amounts of assets pledged as collateral for bank loans at February 28, 2022 and 2021 were as follows, although there were no corresponding obligations:

	Milliono	of Von	Thousands of U.S. Dollars
	Millions of Yen		U.S. Dollars
	2022	2021	2022
Land and buildings, net of accumulated depreciation	¥107	¥110	\$926

As is customary in Japan, the Company maintains substantial deposit balances with banks with which it has borrowings. Such deposit balances are not legally or contractually restricted as to withdrawal.

General agreements with respective banks provide, as is customary in Japan, that additional collateral must be provided under certain circumstances if requested by such banks and that certain banks have the right to offset cash deposited with them against any long-term or short-term debt or obligation that becomes due and, in case of default and certain other specified events, against all other debt payable to the banks. The Company has never been requested to provide any additional collateral.

9. RETIREMENT AND PENSION PLANS

The Company and certain consolidated subsidiaries have severance payment plans for employees. Under most circumstances, employees terminating their employment are entitled to retirement benefits determined based on the rate of pay at the time of termination, years of service and certain other factors. Such retirement benefits are made in the form of a lump-sum severance payment from the Company or from certain consolidated subsidiaries and annuity payments from a trustee. Employees are entitled to receive additional payments if the termination is by voluntary retirement at earlier ages prior to the mandatory retirement age.

The Company and certain consolidated subsidiaries have contributory funded defined benefit pension plans and unfunded retirement benefit plans for employees. Certain overseas consolidated subsidiaries have defined retirement benefit plans or defined retirement contribution plans.

Certain consolidated subsidiaries adopt the simplified method in determining retirement benefit obligations.

- 1. Defined benefit plans (including plans to which the simplified method is applied)
 - (1) The changes in defined benefit obligations for the years ended February 28, 2022 and 2021, were as follows:

			Thousands of
	Millions of Yen		U.S. Dollars
	2022	2021	2022
Balance at beginning of year	¥15,100	¥15,505	\$130,679
Current service cost	526	528	4,552
Interest cost	148	153	1,280
Actuarial losses	2	227	17
Benefits paid	(1,317)	(1,374)	(11,397)
Others	65	59	562
Balance at end of year	¥14,526	¥15,100	\$125,711

(2) The changes in plan assets for the years ended February 28, 2022 and 2021, were as follows:

			Thousands of
	Millions of Yen		U.S. Dollars
	2022	2021	2022
Balance at beginning of year	¥13,335	¥13,554	\$115,404
Expected return on plan assets	277	281	2,397
Actuarial gains	105	221	908
Contributions from the employer	305	302	2,639
Benefits paid	(993)	(1,025)	(8,593)
Balance at end of year	¥13,030	¥13,335	\$112,765

(3) Reconciliations between the liability recorded in the consolidated balance sheet and the balances of defined benefit obligations and plan assets were as follows:

			Thousands of
	Millions	of Yen	U.S. Dollars
	2022	2021	2022
Funded defined benefit obligation	¥11,583	¥12,191	\$100,242
Plan assets	(13,030)	(13,335)	(112,765)
Total	(1,447)	(1,143)	(12,522)
Unfunded defined benefit obligation	2,942	2,908	25,460
Net liability arising from defined benefit obligation	¥ 1,495	¥ 1,764	\$ 12,938
			Thousands of
	Millions	of Yen	U.S. Dollars
	2022	2021	2022
Liability for retirement benefits	¥2,942	¥2,908	\$25,460
Asset for retirement benefits	(1,447)	(1,143)	(12,522)
Net liability arising from defined benefit obligation	¥1,495	¥1,764	\$12,938
·			

(4) The components of net periodic benefit costs for the years ended February 28, 2022 and 2021, were as follows:

			Thousands of
	Millions of	Millions of Yen	
	2022	2021	2022
Service cost	¥526	¥528	\$4,552
Interest cost	148	153	1,280
Expected return on plan assets	(277)	(281)	(2,397)
Amortization of actuarial differences	140	130	1,211
Amortization of prior service cost	(47)	(54)	(406)
Periodic benefit cost calculated by the simplified method	65	59	562
Others	45	42	389
Net periodic benefit costs	¥602	¥577	\$5,209

(5) Amounts recognized in other comprehensive income (before income tax effect) in respect of defined retirement benefit plans for the years ended February 28, 2022 and 2021, were as follows:

	Millions of	f Yen	Thousands of U.S. Dollars
	2022	2021	2022
Prior service cost	¥ (47)	¥ (54)	\$ (406)
Actuarial differences	243	123	2,102
Total	¥196	¥ 68	\$1,696

(6) Amounts recognized in accumulated other comprehensive income (before income tax effect) in respect of defined retirement benefit plans as of February 28, 2022 and 2021, were as follows:

			Thousands of
	Millions of	of Yen	U.S. Dollars
	2022	2021	2022
Unrecognized prior service cost		¥ (47)	
Unrecognized actuarial differences	¥438	681	\$3,790
Total	¥438	¥634	\$3,790

(7) Plan assets

a. Components of plan assets

Plan assets as of February 28, 2022 and 2021, consisted of the following:

· · · · · · · · · · · · · · · · · · ·		•
	2022	2021
Debt investments	40%	38%
Equity investments	22	22
Cash and cash equivalents	4	0
General account assets of life insurance	29	35
Others	5	5
Total	100%	100%
·		

- b. Method of determining the expected rate of return on plan assets

 The expected rate of return on plan assets is determined by considering the long-term rates of return which are expected currently and in the future from the various components of the plan assets.
- (8) Assumptions used for the years ended February 28, 2022 and 2021, were set forth as follows:

	2022	2021
Discount rate	1.0%	1.0%
Expected rate of return on plan assets	2.1%	2.1%
Expected rate of salary increase	2.8%	2.8%

2. Defined contribution plans

The amount of required contribution to the defined contribution plans of the Company and consolidated subsidiaries for the years ended February 28, 2022 and 2021 was ¥293 million (\$2,535 thousand) and ¥283 million, respectively.

10. EQUITY

Japanese companies are subject to the Companies Act of Japan (the "Companies Act"). The significant provisions in the Companies Act that affect financial and accounting matters are summarized below:

(a) Dividends

Under the Companies Act, companies can pay dividends at any time during the fiscal year in addition to the year-end dividend upon resolution at the shareholders' meeting. Additionally, for companies that meet certain criteria including (1) having a Board of Directors, (2) having independent auditors, (3) having an Audit & Supervisory Board, and (4) the term of service of the directors being prescribed as one year rather than the normal two-year term by its articles of incorporation, the Board of Directors may declare dividends (except for dividends-in-kind) at any time during the fiscal year if the company has prescribed so in its articles of incorporation. However, the Company does not meet all the above criteria.

Semiannual interim dividends may also be paid once a year upon resolution by the Board of Directors if the articles of incorporation of the company so stipulate. The Companies Act provides certain limitations on the amounts available for dividends or the purchase of treasury stock. The limitation is defined as the amount available for distribution to the shareholders, but the amount of net assets after dividends must be maintained at no less than ¥3 million.

- (b) Increases/decreases and transfer of common stock, reserve and surplus

 The Companies Act requires that an amount equal to 10% of dividends must be appropriated
 as a legal reserve (a component of retained earnings) or as additional paid-in capital (a
 component of capital surplus), depending on the equity account charged upon the payment
 of such dividends until the aggregate amount of legal reserve and additional paid-in capital
 equals 25% of the common stock. Under the Companies Act, the total amount of additional
 paid-in capital and legal reserve may be reversed without limitation. The Companies Act also
 provides that common stock, legal reserve, additional paid-in capital, other capital surplus
 and retained earnings can be transferred among the accounts within equity under certain
 conditions upon resolution of the shareholders.
- (c) Treasury stock and treasury stock acquisition rights

 The Companies Act also provides for companies to purchase treasury stock and dispose of such treasury stock by resolution of the Board of Directors. The amount of treasury stock purchased cannot exceed the amount available for distribution to the shareholders which is determined by a specific formula. The Companies Act also provides that companies can purchase both treasury stock acquisition rights and treasury stock.

11. INCOME TAXES

The Company and its domestic subsidiaries are subject to Japanese national and local income taxes which, in the aggregate, resulted in a normal effective statutory tax rate of approximately 30.6% for the years ended February 28, 2022 and 2021.

The tax effects of significant temporary differences and tax loss carryforwards which resulted in deferred tax assets and liabilities at February 28, 2022 and 2021, are as follows:

	Millions	of Yen	Thousands of U.S. Dollars
	2022	2021	2022
Deferred tax assets:			
Unrealized profit	¥ 988	¥ 932	\$ 8,550
Liability for retirement benefits	905	899	7,832
Loss on impairment of long-lived assets	107	126	926
Inventories	669	706	5,789
Investment securities	221	217	1,912
Accrued bonuses	452	505	3,911
Accrued product warranty costs	313	323	2,708
Tax loss carryforwards (Note 2)	1,717	1,765	14,859
Other	563	691	4,872
	5,940	6,169	51,406
Less valuation allowance for tax loss carryforwards (Note 2)	(1,548)	(1,746)	(13,396)
Less valuation allowance for temporary differences	(3,540)	(3,455)	(30,636)
Total valuation allowance (Note 1)	(5,088)	(5,202)	(44,032)
Deferred tax assets	851	966	7,364
Deferred tax liabilities:			
Accelerated depreciation in overseas subsidiaries	113	73	977
Unrealized gain on available-for-sale securities	243	182	2,102
Undistributed earnings of overseas subsidiaries	283	235	2,449
Asset for retirement benefits	432	343	3,738
Other	76	24	657
Deferred tax liabilities	1,148	859	9,935
Net deferred tax (liabilities) assets	¥ (296)	¥ 106	\$ (2,561)

Notes

^{1.} Valuation allowance decreased by ¥114 million (\$986 thousand) mainly because the valuation allowance relating to tax loss carryforwards of the Company decreased by ¥165 million (\$1,427 thousand).

2. The expiration of tax loss carryforwards, the related valuation allowances and the resulting net deferred tax assets as of February 28, 2022 were as follows:

			М	lillions of Yen			
		After	After	After	After		
		One Year	Two Years	Three Years	Four Years		
F I 00 0000	One Year	through	through	through	through	After	
February 28, 2022	or Less	Two Years	Three Years	Four Years	Five Years	Five Years	Total
Deferred tax assets relating to							
tax loss carryforwards *a	¥ 471	¥ 9	¥ 921	¥ 38	¥ 21	¥ 255	¥ 1,717
Less valuation allowance for							
tax loss carryforwards	(353)	(9)	(921)	(38)	(21)	(203)	(1,548)
Net deferred tax assets							
relating to tax loss							
carryforwards	117					52	169 *b

	Thousands of U.S. Dollars						
February 28, 2022	One Year or Less	After One Year through Two Years	After Two Years through Three Years	After Three Years through Four Years	After Four Years through Five Years	After Five Years	Total
Deferred tax assets relating to tax loss carryforwards *a	\$ 4,076	\$ 77	\$ 7,970	\$ 328	\$ 181	\$ 2,206	\$ 14,859
Less valuation allowance for tax loss carryforwards	(3,054)	(77)	(7,970)	(328)	(181)	(1,756)	(13,396)
Net deferred tax assets relating to tax loss carryforwards	1,012					450	1,462 *b

- *a Deferred tax assets relating to tax loss carryforwards are computed by multiplying the normal effective statutory tax rate.
- *b Net deferred tax assets recorded at ¥169 million (\$1,462 thousand) are recognized for tax loss carryforwards of ¥1,717 million (\$14,859 thousand) (computed by multiplying the normal effective statutory tax rate). These deferred tax assets are recognized for tax loss carryforwards of ¥1,717 million (\$14,859 thousand) mainly recorded by the Company and FURUNO SYSTEMS CO., LTD., which is a consolidated subsidiary, and no valuation allowance is provided for the portion that is deemed to be recoverable based on expected future taxable income.

A reconciliation between the normal effective statutory tax rates and the actual effective tax rates reflected in the accompanying consolidated statements of income for the years ended February 28, 2022 and 2021, is as follows:

-, ,		
	2022	2021
Normal effective statutory tax rate	30.6%	30.6%
Lower income tax rates applicable to income in certain foreign countries	(7.3)	(5.9)
Expenses not deductible for income tax purposes	8.0	0.5
Per capita inhabitant tax	8.0	0.6
Nontaxable dividends and other income	(0.6)	(0.6)
Undistributed earnings of overseas subsidiaries	1.3	0.3
Valuation allowance for deferred tax assets	(3.5)	(13.1)
Other – net	1.8	4.0
Actual effective tax rate	23.9%	16.4%

12. SELLING, GENERAL AND ADMINISTRATIVE EXPENSES

Selling, general and administrative expenses in the accompanying consolidated statement of income for the years ended February 28, 2022 and 2021, mainly consisted of the following:

			Thousands of
	Millions	of Yen	U.S. Dollars
	2022	2021	2022
Employees' salaries and wages	¥9,161	¥8,351	\$79,281
Employees' bonuses	1,289	1,178	11,155
Provision for allowance for doubtful receivables	(3)	57	(25)
Provision for employees' bonuses	1,065	1,104	9,216
Retirement benefit expenses	552	511	4,777
Travel and communication expenses	839	747	7,260
Depreciation and amortization	1,117	1,099	9,666

13. RESEARCH AND DEVELOPMENT COSTS

Research and development costs included in selling, general and administrative expenses were ¥5,458 million (\$47,234 thousand) and ¥5,303 million for the years ended February 28, 2022 and 2021, respectively.

14. FINANCIAL INSTRUMENTS AND RELATED DISCLOSURES

(1) Group policy for financial instruments

The Group raises necessary funds to support its principal business plans to produce and sell marine electronic equipment and industrial electronic equipment. Cash surpluses, if any, are invested in low-risk financial assets. Short-term bank loans are used to fund ongoing operations. Derivatives are not used for speculative purposes, but to manage exposure to financial risks as described below.

(2) Nature and extent of risks arising from financial instruments

Trade receivables, such as notes receivable and accounts receivable, are exposed to customer credit risk.

Foreign currency denominated trade receivables arising from global activities are exposed to the market risk of fluctuations in foreign currency exchange rates.

Investment securities, mainly equity instruments of customers and suppliers of the Group held for business or capital alliance purposes, are exposed to the risk of market price fluctuation.

Payment terms of trade payables, such as notes payable and accounts payable, are less than one year. Certain trade payables arising from import of raw materials, which are denominated in foreign currencies, are exposed to the market risk of fluctuations in foreign currency exchange rates.

Maturities of bank loans, mainly for the purpose of financing necessary working funds, are less than seven years after the balance sheet date. Certain bank loans are exposed to the market risk of fluctuations in variable interest rates. Those risks are mitigated by using derivatives such as interest rate swaps.

Derivatives mainly consist of interest rate swaps which are used to avoid or mitigate the market risks from changes in interest rates. For hedging instruments and hedged items concerning hedge accounting and hedging policies and hedge effectiveness, please see Note 2.r "Derivatives and Hedging Activities" under "SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES."

(3) Risk management for financial instruments

Credit Risk Management

Credit risk is the risk of economic loss arising from a counterparty's failure to repay or service debt according to the contractual terms.

The Company manages its credit risk from trade receivables by monitoring payment terms and balances of major customers and identifying the default risk of counterparties at an early

stage in accordance with the credit control policy. The consolidated subsidiaries have similar control policies pursuant to the Company's credit control policy. Derivatives are entered into with only high-credit rating financial institutions and, accordingly, credit risk arising from default of the counterparties is kept at a minimum. The maximum credit risk exposure of financial assets as of the consolidated balance sheet date is represented by their carrying values exposed to credit risk.

Market Risk Management (foreign exchange risk and interest rate risk)

The Group hedges foreign currency trade receivables and payables against market risk from fluctuations in foreign currency exchange rates identified by currency and by month using principally forward foreign currency contracts. Such foreign exchange risk is hedged principally by forward foreign currency contracts. In addition, the Group utilizes interest rate swaps to mitigate the risk from changes in interest rates associated with bank loans.

Investment securities are managed by monitoring market values and financial position of issuers on a regular basis and continuously reviewing the holding status by taking into consideration the relationship with the counterparties.

Derivative transactions are executed and controlled based on internal guidelines, which prescribe the transaction limits and procedures of the finance department of each company, and the positions are identified on a regular basis. In addition, the responsible division of the Company is informed of the status of transactions by each Group company on a regular basis to control and confirm the positions.

Liquidity Risk Management

Liquidity risk comprises the risk that the Group cannot meet its contractual obligations in full on maturity dates.

The Group manages its liquidity risk by preparing and updating the financial plans of the Accounting Department based on the reports from each division.

(4) Fair values of financial instruments

Fair values of financial instruments are based on quoted prices in active markets. If a quoted price is not available, other rational valuation techniques are used instead. Please see Note 15 for fair value information for derivatives.

(a) Fair value of financial instruments

	Millions of Yen

^{*1} Net receivables or payables arising from derivative transactions to which hedge accounting is not applied and deferral hedge accounting is applied are presented in a net amount and net payables are presented in parentheses.

Assets:

Cash and cash equivalents, short-term investments and notes receivable, accounts receivable —trade and electronically recorded receivables—operating

The fair values of these items are determined using their carrying amounts, since their carrying amounts approximate the fair values as these amounts are settled in a short period of time. Investment securities

The fair values of investment securities are measured at the quoted market prices of the stock exchange for equity securities, and at the quoted market prices of the exchanges or the quoted prices obtained from financial institutions for debt securities.

Liabilities:

Short-term bank loans, notes payable and accounts payable—trade and electronically recorded obligations—operating

The fair values of these items are determined using their carrying amounts, since their carrying amounts approximate the fair values as these amounts are settled in a short period of time. Long-term debt, including current portion

The fair values of long-term debt are measured at the discounted present value of aggregated amounts of principal and interest payables using the interest rate that would be applied to similar transactions newly arranged.

The fair values of long-term debt with floating interest rates hedged using interest rate swaps qualifying for hedge accounting are measured at the discounted present value of aggregated amounts of principal and interest payables which are accounted for together with the swaps using the reasonably estimated interest rate that would be applied to similar transactions to be newly arranged or at the values presented by the financial institutions.

Derivatives:

Please see Note 15 "DERIVATIVES."

The fair values of interest rate swaps which are accounted for together with the long-term debt as the hedged item are included in the fair values of the relevant long-term debt, if they qualify for hedge accounting.

Please see Note 8 for annual maturities of long-term debt.

15. DERIVATIVES

The Group enters into foreign currency forward contracts to hedge foreign exchange risk associated with certain assets and liabilities denominated in foreign currencies. The Group also enters into interest rate swap contracts to manage its interest rate exposures on certain liabilities.

All derivative transactions are entered into to hedge interest and foreign currency exposures incorporated within the Group's business. Accordingly, market risk in these derivatives is basically offset by opposite movements in the value of hedged assets or liabilities.

Because the counterparties to these derivatives are limited to major international financial institutions, the Group does not anticipate any losses arising from credit risk.

Derivative transactions entered into by the Group have been made in accordance with internal policies which regulate the authorization and credit limit amount.

The following appropriation of retained earnings at February 28, 2022, was approved at the Company's shareholders' meeting held on May 26, 2022:

	Millions of	Thousands of
	Yen	U.S. Dollars
Year-end cash dividends, ¥20 (\$0.17) per share	¥630	\$5,452

19. SEGMENT INFORMATION

Under ASBJ Statement No. 17, "Accounting Standard for Segment Information Disclosures," and ASBJ Guidance No. 20, "Guidance on Accounting Standard for Segment Information Disclosures," an entity is required to report financial and descriptive information about its reportable segments. Reportable segments are operating segments or aggregations of operating segments that meet specified criteria. Operating segments are components of an entity about which separate financial information is available and such information is evaluated regularly by the chief operating decision maker in deciding how to allocate resources and in assessing performance. Generally, segment information is required to be reported on the same basis as is used internally for evaluating operating segment performance and deciding how to allocate resources to operating segments.

1. Description of reportable segments

The Group's reportable segments are those for which separate financial information is available and regular evaluation by the Company's management is being performed in order to decide how resources are allocated among the Group.

The principal business of the Group is manufacturing and sales of marine equipment, industrial electronics equipment, wireless LAN system and handy terminals. The Company consists of divisions separated by product and service, and each division designs comprehensive strategies for its products and services and develops relevant business activities. Each subsidiary develops business activities from a management perspective within the Group. Accordingly, the Group consists of business segments by product and service, which are the "Marine" business, the "Industrial" business, and the "Wireless LAN/ Handy Terminal" business, as the reportable segments.

The major products in the "Marine" business are navigation equipment, fishing equipment and radio communication equipment, etc. The major products in the "Industrial" business are medical equipment, ITS equipment, GPS equipment, and avionics electronic equipment, etc. The major products in the "Wireless LAN/Handy Terminal" business are wireless LAN system and handy terminals, etc.

2. Methods of measurement for the amounts of sales, profit, assets, liabilities and other items for each reportable segment

The accounting policies of each reportable segment are consistent with those disclosed in Note 2 "SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES."

Segment profit corresponds to the figure based on "operating income" in the consolidated statement of income.

Intersegment sales or transfers are based on the arm's-length price.

3. Information about sales, profit, assets, liabilities and other items:

				Millions

- 1. "Other" is a business segment which is not included in reportable segments and includes the electromagnetic environmental testing business and other businesses.
- 2. The nature of "Reconciliations" is as follows:

 (1) "Reconciliations" of "Segment profit (loss)" includes general and administrative expenses of the head office administration
 - departments which do not belong to any reportable segment.

 (2) "Reconciliations" of "Segment assets" includes assets of the head office administration departments, which do not belong to any reportable segment, mainly consisting of common use assets, investments and other assets.

- (3) "Reconciliations" of "Increase in property, plant and equipment and intangible assets" includes capital investments, which do not belong to any reportable segment.
- 3. Segment profit (loss) is reconciled with operating income in the consolidated statement of income.

Other Related Information:

- 1. Information by product and service Information by product and service is omitted since similar information is disclosed in the segment information.
- 2. Information by geographic region
